Convener-counseling Cell

Psychological problems are as common as physical but lack of awareness makes it worse. To find a help in form of psychologists or counselor is also a problem.

Over college has a counseling cell which deals with these problems of students and staff. This year no student came for counseling.

Psychology students were asked to make charts and paper news clipping related to their problems and display on the notice board. It becomes "OBSERVATIONAL LEARNING" for the students who read these charts
