## MESSAGE FROM THE PRESIDENT

It gives me immense pleasure in jotting down this message and thereby sharing with you my hopes and aspirations for a vibrant BHARAT. In the coming years, India is going to be a leading country in the world. The economy of India is growing at more than 10% per annum.

We have already started "SARVA SIKSHA ABHIYAAN "in which primary education will be given free to all by Government. However, in higher education, Government wants more participation of private players as we have to increase the Gross Entry Ratio (GER) from 12% to 30%. Government wants 1500 new universities to be established and 20000 more colleges to be opened within the span of ten years. Foreign universities are going to be permitted to operate in India very shortly. The Government has set standards for appointment of the teaching community. The post of Associate Professor, Asst. Professor, Professor and Principal calls for a minimum qualification of Ph.D in the respective discipline . Their market value will increase commensurate with their experience. Thus, there lies a great demand for Scholars in all fields. India needs some 30000 Ph.D holders each year. JJT University, in its serene atmosphere, would prove a mental tonic for the young researcher.

Our University is trying its best to give facilities to research scholar to carry out their research work in the most scientific way and is also aiming for quality research work, by keeping the output norms on stringent scrutiny. To improve the quality of Research, proper guidance, able assistance and adequate encouragement is assured to all Ph. D Research Scholars. Now, it is time to make India strong and I invite all academicians to support Higher education by encouraging research in big way. It is required for us to look life through the wind-shield and not through the rear-view mirror; hence it is for the incumbent to happily fly with his two wings – determination and hard work. Let Perseverance be your engine, Hope the fuel, so that your happy personal train smoothly glides through life's tracks towards the destination of unlimited ecstasy.

***Shri. Vinod Tibrewala***

## FROM PRINCIPAL'S DESK

## Glimpses of our achievement

**"Education is not the learning of facts, but the training of the mind to think."**

- Albert Einstein

I take great pleasure in presenting the 31<sup>st</sup> annual report of S.P.D.T college documenting its development and the achievement for the year 2017-18. This year is marked with many events and successful stories. This can be attributed to the dedication and team spirit of the staff, students and members of the management.

In this age of globalization where information is easily and universally accessible, we at Smt. Parmeshwari devi Durgadutt Tibrewala Juhu College of Arts Commerce & Science, aim to provide the tools necessary for our students to face the challenges in the world. We truly believe that the foundation of a strong and prosperous nation lies in its youth, and an educated mind can contribute radically. It is with this thinking that we have introduced various skill development programs and courses that value to students which will provide them with the pre requisites to overcome various challenges and help them build a fulfilling career. We are happy to announce our institution is eligible to provide higher education to more than 2000 students in various graduate & post graduate courses through University of Mumbai.

To inculcate social values in our students our N.S.S. Unit conducted many activities like Tree plantation, Swatch Bharat Abhiyaan, Blood donation camp etc. N.S.S. special camp was organized at Vanprasth Ashram Bhyander from 20/12/17 to 26/12/17. The strength of N.S.S. unit of our college is also appreciable as they actively participated in different University level programs like peace rally at Azad Maidan, Aids awareness week, Environment awareness program under the supervision of Prof. Sanjay Mishra.

Our N.C.C. is also very active unit that aims to spread the spirit of Nationalism, unity and brotherhood. Many cadets have been enrolled to show their courage. Our large number of students also participated in various sports events at University level such as football, boxing, chess and cricket. Our college has also organized indoor games and annual sports day on 25<sup>th</sup> January at Matoshree, Municipal ground, Jogeshwari (E). Our student Miss Aditi Chandolkar was selected for All India Championship Malkhamb in the inter-collegiate competition organized by University of Mumbai.

The research is inseparable part of Higher Education. We always encourage our staff to promote their research in different fields. Our college has organized two days ICSSR sponsored National seminar on "Contemporary Social issues of Indian Society" on 22<sup>nd</sup> & 23<sup>rd</sup> December 2017. Apart from it Prof. Sanjay Mishra, Dr. Nidhi Pundir, Dr. Vijay Yadav attended UGC sponsored refresher course/ orientation course. Others have also attended many National & International workshops, conferences etc.

## FROM PRINCIPAL'S DESK

It is matter of pride for all of us that our Professor Dr. Sandeep Poddar is awarded distinguished "Assistant Professor".

We have started our department of life-long learning and extension under which different types of community services were undertaken which help the students to understand the real issues of the society and how to cope up with the worse situation in the life. This year we have completed the project title Status of women in society in which each student determined 50 women from different state of society and find out their present social and economic status not only in their family but also in entire society.

Other than education, our college promotes different extra-curricular activities to encourage students to showcase their talent. Student council organized Raas Dandiya on 14<sup>th</sup> October 2017. Our efforts are always in the direction to find out hidden talents among the students by organizing different cultural programs like mehandi, rangoli, vegetable carving etc. Cultural committee has organized " Rudra" on 15<sup>th</sup> & 16<sup>th</sup> January 2018 . Every year Rudra comes with new energy, enthusiasm and provide a platform to young generation to fight for fame.

I thank Almighty for all his blessings to our institutions and I am grateful and highly obliged towards our Management for their constant support in all initiatives, achievement and success. Last but not the least: I would like to thank all my teaching & administrative staff members for their support and efforts for achieving our goals.

**-Dr. Trishla Mehta**

**Conclusion:** The Problems faced by the people were numerous, however it was electricity, water supply and transportation which topped the list. The studies of children were hampered due to school not being approachable which also led to lots of students quitting school.

The reason behind Student inability to gain education were no electricity, financial crises and poor transportation. The schools are far from the students either have to walk or take Rikshaw which is very expensive and cannot be afford by their parents. The monthly income of these people is too low due to which education of children could not be affordable for the people. By this time we learned so many activities and understand the village peoples condition and got knowledge by different sessions.

## SUCCESS

Dream success as a river and you be the boat in the river. If the boat sail in it the river will take it where it goes, If you work hard success will take you where it goes.

Don't be afraid of the turn sand twists. Don't be afraid of the depth of it. Always look ahead to learn something. Never look behind to what you have already done.

If the river any time turns dry enter into ocean. Never come back to the shore. Sail, sail and move ahead.

If at some time you feel tired, don't just sit and give up, Choose to change the situation and learn to handle difficult time. Fill your self with astonishment and never take a stop. Some days are full of smile and some days are full of crisis. Everyday is a treasure. Meet new people. Change is the only constant in life. Make a new

personality.

Undoubtedly mistakes will happen but life is all about learning. Its all about coming out of your

## MOTHERHOOD

What's so unique with Motherhood, I have been thinking.....

Noises, cries, shouts, dirty mess...

Wrong doorbell is all that's ringing.

But a friend did tell me,

About a feeling so overwhelming

It's the moment when you conceive,

A beautiful world do you get to perceive...

The journey of the world is not so short

The dreams express takes nine months of sort.

Initially when you just throw up all

You curse your decision like hell

But the day junior inside kicks a ball,

You pray that all goes well.

Surmounting a mountain of expectations and load of pain..,

The angel's cry and my smile is the ultimate gain.

His tiny hands and soft cheeks feel so great..,

The warmth of his touch takes all your agonies till date.

While his first word truly enthrall

Hearing "Mamma" is the best of it all.

As the Dream Merchant gets more desirable

The motherhood inside feels more responsible

God bless him in all his adventures

And may he soar high in the years to come.

## FRIENDSHIP

We come in life alone,  
And play it as we are a clone.  
Life is just a waste of time,  
Until you don't have a friend mine.

Friendship makes our life best.  
That we forget the world rest.  
Some friends act as a host in life,  
And some boast and feel shy.

Friendship is like that light,  
that removes darkness from the night.  
Some friend direct us right,  
but some make our life full of fright.

Friendship is relation that we choose,  
that make us our bad habits lose.  
Real friendship comes from our heart,  
and it never keeps the friends apart.

Last but not the least friendship is fine,  
as long as it does not give away any bad sing.

## NOSTALGIA

I remember that way he was always around,  
When I used to be up in the night dark gown.  
From riding a cycle to facing the issues,  
Whenever I cried he was the one with tissues.  
Though I used to give up on days harsh  
challenges,  
He still stood behind complete and quiet with  
my favorite fruit oranges.  
My hero or superstar but non-like other,  
He was the only one, my great father.  
I remember the day when his eyes shed tears,  
When moving along I felt him far and rear.  
Now whenever I fall, I cry, I call out all that he  
taught me,  
"Never stop, just try".

## LIFE EXPLAINED BY WAVES

"life is unpredictable, but that's where the fun begins. It was an amazing evening, jogging along the coastline, as the body experienced fatigue, I stopped to enjoy the cool breeze. My gaze got shifted to the waves, it was not anything new. I have experienced them many times before. I was amazed by the behavior of the waves hitting the shore. Every time the waves hit the shore, it was pulled back by the sea, but every time it was pulled back it came with full might bringing four consecutive waves. This phenomenon explained a lot about life.

To put into perspective, shore represents our goals, waves are our efforts, pullback is the failure and wind is the motivation. It occurred to me that in life, whenever our efforts fail and life pulls us back, it is up to us to be dejected or to use the motivation. It is important to always stay motivated and keep on working towards the goals. Blaming others on our failure does not do us any goods. Take charges for your own decision and action. Never be dejected..."
